# Introduction

This booklet provides a guide of funding opportunities for cultural collaborations between the Kingdom of the Netherlands\* and the Kingdom of Belgium, offered by the Embassy of the Kingdom of the Netherlands in Belgium and DutchCulture, the Dutch platform for international cultural cooperation.

The main objective of this booklet is to inform both countries' cultural sectors on funding bodies and programmes that support the cultural collaboration between the Kingdom of the Netherlands and Belgium. The overview focuses on funding for projects taking place in Belgium. Both, projects carried out by makers based in the Kingdom of the Netherlands and collaborations between two cultural partners (makers/organisations) from the Kingdom of the Netherlands and Belgium, are eligible.

Please note that this funding guide is based on DutchCulture's **Digital Mobility Funding Guide**, helping to explore funding opportunities for international projects, such as exhibitions, tours, residencies, festival participation, or collaborations abroad. The digital mobility funding guide also includes options for further education abroad, like summer courses or masterclasses. For more information, please scan the QR code below.

\*The Kingdom of the Netherlands refers to the Netherlands as well as the Caribbean part, namely Aruba, Bonaire, Curaçao, Sint Eustatius, Sint Maarten and Saba. Oftentimes, more budget than indicated in this overview is available for cultural collaboration between the Caribbean part and Belgium, since for example travel costs are higher. Please check the website of the grant provider for more information.
